in one click

BizCloud is part of the award-winning BizInsight Excel Suite

Connect to any data source, any time, on any device, and stay connected in real time, so as you update your spreadsheets, you always have the freshest data. It's all built in Excel; fast, easy, and now seamless data connections.

### Grow as You Grow

BizCloud is cloud connected and totally scalable with editions designed to grow as you do:

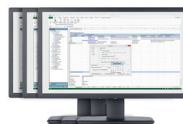

### Desktop Edition-

- Connect to your own personal cloud
- Read/write data in Excel as you go

### MutiUser Edition-

- Connect groups
- Share all data
- Keep the whole group updated and always connected

### Enterprise Edition-

- Robust, ERP connections
- Share data with unlimited users and groups
