Epicor and Platinum Services Europe Extend Partnership to Cover France

Long-term partners, Epicor and PSE, join efforts to expand customer portfolio in France

Epicor Software Corporation, a global provider of [industry-specific enterprise software](#) to promote business growth, today announced that its Belgian-based partner Platinum Services Europe (PSE) is extending its partnership agreement to also cover France. In line with PSE's ambitious growth goals, Epicor will support the value-added reseller (VAR) as it ramps up its activity in the French market and develops its customer portfolio, specifically in the distribution sector.

Founded in 1996, PSE is a long-standing Epicor partner with a portfolio of more than 50 local customers in Belgium and 10 in France such as SES-Imagotag and Kadant. The company has experienced high growth in recent years with a yearly turnover of 2 million Euros and annual growth of 10%. It has now turned its focus to expanding in France. In order to accelerate the expansion, PSE is planning to open a French office, in addition to its head office in Brussels, by 2018.

Sabby Gill, executive vice president, international, Epicor Software said, "Epicor has had a strong partnership with Platinum Services Europe for many years. As a long-term partner with a dedicated professional services team who has an in-depth understanding of our enterprise resource planning (ERP) solution, PSE was a natural choice for our channel expansion plans in France. We have already started working with joint customers and we are delighted about the opening of an office in France."

Madame Sonia Moreno, managing director for PSE said, "The French market is particularly interesting for us. Despite being mature, it represents a strong growth potential for a solution like Epicor ERP with its ability to integrate new usages, such as the Internet of Things, real-time activity management, mobile access, native web access, and dematerialisation of document flows. It also addresses new market needs, for example rapid process changes, international accounts management, FEC-electronic European invoicing "PEPPOL", and 2018 certification. This collaboration will enable us to aid French businesses' growth, both locally and abroad, by offering them a valuable management tool

"This collaboration will enable us to aid French businesses' growth both locally and abroad by offering them a valuable management tool for their entire operation. Epicor ERP is an ideal solution for businesses that need to permanently adapt to their market."

for their entire operation. Epicor ERP is an ideal solution for businesses that need to permanently adapt to their market.”

About PSE

Platinum Services Europe has been offering its services as an ERP specialist since 1996. We advise and aid our clients (from start-ups to SMEs or larger international groups) in installing Epicor solutions in Europe and worldwide. As one of Epicor’s certified partners we are also assuring maintenance for numerous clients and we aim to facilitate continuous growth for them. Our strength comes from 20 years’ experience and we deploy Epicor within manufacturing and commercial multi-site organisations, whilst understanding local rules and regulations. For more information please visit www.pse.be.
